

LB 115, LB 243
February 9, 1973

(Start Belt #12)

attempted to be imposed on us by these particular organizations at the national and state level, an accepted practice in almost any other area, so I think the committee used good judgement in retaining this language I'd urge the members of this body to leave this amendment in.

SPEAKER: Senator Marsh.

SENATOR MARSH: As was pointed out to me, we do not have any schools of Chiropractic in the state of Nebraska. None of the current schools of Chiropractic will allow anyone in their college of Chiropractics who does not have a high school degree and their reasoning behind this is the medical schools require a high school diploma, therefore, they want to have as nearly equivalent requirements to upgrade their own needs for highly qualified individuals to go into the field of Chiropractic.

SPEAKER: If there is no further discussion, are you ready to close on your, on the committee amendments Senator Kennedy.

SENATOR KENNEDY: Yes unless there are some questions, I certainly hope that we give those veterans and other personnel that have went through this particular education, do have the qualifications, give them that privilege, because I think they have made a very sincere effort and I certainly hope that we accept the committee amendment as stated. Thank you.

SPEAKER: Senator Marsh you may ask a question of Senator Kennedy.

SENATOR MARSH: Senator Kennedy do you think the schools will change their requirements because the state of Nebraska will allow someone to practice in this state who has their equivalency when the general rules of the colleges concerned will not allow them to.

SENATOR KENNEDY: I can not quote exactly what college does accept now, but I was assured there is colleges and I think the others if they care to have people attending their college of the caliber that would spend overtime and particularly veterans, they certainly will not object to having them in their school. So I would urge you to at this time adopt the committee amendment.

SPEAKER: Senator Kennedy has moved for the adoption of the committee amendment, Senator Marsh has opposed this, are you ready to vote, all those in favor of the committee amendment vote aye, all those opposed vote no. We are voting on the committee amendment, have you all voted. The Clerk will record.

CLERK: 15 ayes, 4 nays.

SPEAKER: The committee amendment is adopted. Now Senator Marsh what will you do with the bill?

SENATOR MARSH: I move that the bill be placed on E&R initial.

SPEAKER: Any discussion? Are you ready for the question? All those in favor of advancing the bill vote aye, those opposed vote no. Have you all voted? The Clerk will record.

CLERK: 26 ayes, no nays, 23 not voting.

SPEAKER: The bill is advanced. LB 243. Senator Stull.

SENATOR STULL: I'd like to reconsider our action on LB 100, it shows that I wasn't voting on that bill and I'm sure I pushed my button, now I might have pushed it before you turned the machine on, but I think we should reconsider our action on LB 100, at this time.
